

Dear residents,

Effective immediately the Hopedale Water Department is implementing State mandated water restrictions on all non-essential outside water use between the hours of 9 AM and 5 PM as required under the department's water management act permit. These restrictions are required under the permit due to low stream flows within the Blackstone river basin. Please visit the town of Hopedale web site for a complete listing of prohibited non-essential water use and those uses allowed within this time period.

Once the streamflow gage returns to normal for seven consecutive days, we will notify water users of any changes to the water restrictions.

Thank you for your cooperation.
